

Future Nobel Laureates required

Ages 2-18

Stamford American is proud
to announce our
Global Mentor Program.

Our unique Global Mentor Program equips students to excel and become leaders in their chosen field. In our new Innovation Center, they will learn from global leaders in business and science, invigorating and developing them with the skills, mindset and ambition they require. The Center will be opened by Sir James Alexander Mirrlees – 1996 Nobel Memorial Prize in Economic Sciences – who will speak to and inspire the students.

We are ready and waiting to meet your future Nobel Prize winner. Please introduce us.

STAMFORDAMERICAN
International School

Stamford offers an outstanding international education for students from 2 years through secondary school. We offer the rigorous IB Program – enhanced by American standards and a focus on languages – to equip your child for global citizenship.
